

What we do

Your company runs on words. We help you turn those words into money. The Lexalytics Intelligence Platform empowers you to ask, answer, and act on insights drawn from unstructured text data.

Where others require huge initial investments, we let you start small, with a low-risk system that answers a few specific questions. Establish the value of your solution, then expand its capabilities.

Our powerful natural language processing and “words-first” machine learning delivers business-transforming insights to the Fortune 500, small agencies, and everyone in-between.

Reduce employee turnover

Lower costs and inefficiencies

Identify detailed pain-points

Fix root-cause issues

Optimize market strategy

Scale survey analysis

Monitor social and news media

Make better-informed decisions

Accelerate research and development

Manage risk and compliance

Draw insights from unstructured text

Start small, low-risk

Ask and answer unique questions

Make better decisions

lexalytics.com/applications

“

“Natural Language Processing is hard. Filtering in an environment with so much ambiguity is hard. Analyzing and making sense of billions of words is - wait for it - hard. Lexalytics puts this all together in a way that makes it possible to maintain, collaborate, and distribute results that help our senior leadership teams make better decisions.”

Csaba Dancshazy

Senior Market Research Manager

On-Premise

lexalytics.com/salience

State-of-the-art natural language processing for data analytics companies and enterprises. Rich, powerful analysis and reporting delivered from within the safety of your firewall.

Cloud API

lexalytics.com/semantria

The market-leading natural language processing of Saliency, delivered through our secure cloud infrastructure. Also available as a Microsoft Excel plugin.

Machine Learning

lexalytics.com/assembler

A machine learning toolkit for data scientists, delivering accelerated data management and 10x-faster model building to create “words-first” AI systems.

Storage & Visualization

lexalytics.com/storage

A content storage and visualization service that adds historical and predictive analytics to Saliency or Semantria. Also integrates with our AI Assembler toolkit.

What industries do you serve?

In short, all of them. The Lexalytics Intelligence Platform can be tuned or configured for any industry's language and terminology.

How does the Lexalytics Intelligence Platform fit together?

Our platform allows you to reduce costs by integrating only the functionalities you need now, while retaining the ability to add more features later.

How much does Lexalytics cost?

Please contact us to discuss pricing plans.

I'm ready to move forward, what now?

Schedule a chat today! Let's start building a unique Lexalytics solution for you.
